NAME INDEX

(To the *Journal*, Volume 19)

Adam, —. Discussion at Advanced Propulsion Systems Symposium, 369.
Armstrong, S. Candidate for Council, 531.
Ashdown, D. E. Death, 171.

Beament, A. W. Correspondence on "Uses of Magnesium in Spaceflight", 24.
Bedford, L. H. Paper: "A Review of Satellite Communications Systems", 127.
Beeton, A. B. P. *See* Jeffs, R. A.
Bell, N. M. Death, 55.
Bellamy, F. H. Death, 55.
Bevan, John S. Correspondence on "Units", 264.
Bolt, P. C. Death, 171.
Briggs, Michael H. and Mamikunian, Gregg. Paper: "Venus: A Summary of Present Knowledge", 45.
Brown, —. Discussion at Ground Support Equipment Symposium, 240.
Buchanan, S. Elected Member of Council, 304, 431; qualifications, 533.

Carter, L. J. Presents Accounts and Balance Sheet, (1961) 102, (1962) 431, (1963) 531.
Carton, D. Discussion at 17th Annual General Meeting, 102; at Advanced Propulsion Systems Symposium, 370.
Cashmore, D. J. Elected Member of Council, 531; discussion at 17th Annual General Meeting, 102.
Cleaver, A. V. Discussion at Advanced Propulsion Systems Symposium, 305, 369–71.
Clinton, A. Cadman. Discussion at Meteorology from Space Symposium, 417–8.
Cobb, J. C. C. Death, 55.
Cooper, John Cobb. Correspondence on "Extra-terrestrial Life and Space Lawyers", 101, 302.
Cope, P. E. G. Paper: "The Attitude Control System of the Skylark Sounding Rocket", 285.
Corkhill, J. M. Death, 55.
Crabtree, L. F. and Peckham, D. H. Paper: "Re-entry and Landing", 510.
Craston, J. L. Paper: "Review of Energy Conversion Methods Using Radioisotopes", 105.
Crombe, (Miss) Angela. Discussion at Meteorology from Space Symposium, 409.
Cruddace, R. G. Elected Member of Council, 304, 431; Papers: "The Application of Advanced Propulsion Systems to Deep-Space Vehicles", 133; "Whither Advanced Propulsion?", 361; reply to discussion, 370; biography, 451.
Crystal, H. Discussion at Space Power Generation Symposium, 68.

Davidson-Houston, J. H. Death, 55.
Davis, N. E. Discussion at Meteorology from Space Symposium, 385.
Debus, Kurt H. Paper: "Saturn Ground Support Equipment Facilities", 196; reply to discussion, 205–6.
Denny, —. Discussion at symposia, 206, 370.
de Taube, Elizabeth. Death, 171.
Dowles, E. M. and Seddon, J. Paper: "Orbital Rendezvous Techniques", 498.
Duke, —. Discussion at Ground Support Equipment Symposium, 205.
Dumbrell, J. L. Discussion at Space Power Generation Symposium, 86.
Durbin, W. G. Discussion at Meteorology from Space Symposium, 409, 418.
Dutton, Tom. Appointed Secretary of Scottish Branch, 54.
Dyson, (Miss) Dorothy. Discussion at 19th Annual General Meeting, 532.

Eadie, R. W. Discussion at 17th Annual General Meeting, 102.
Evans, J. Paper: "Solar Cells", 62; reply to discussion, 68.

Ewart, D. G. Correspondence on "Effect of Atmospheric Drag on Satellite Orbits", 24.

Falworth, Geoffrey. Correspondence on "Extra-terrestrial Telescopes", 263.
Fears, F. R. Discussion at 17th Annual General Meeting, 102.
Forrester, A. T., Kuskevics, G. and Teem, J. M. Communication at Advanced Propulsion Systems Symposium, 371.
Freshwater, P. R. Scrutineer at Annual General Meetings, 431, 531.
Frith, R. Discussion at Meteorology from Space Symposium, 373, 385.

Gardner, J. B. Paper: "Cryogenic Propellent Supply Facilities", 230; reply to discussion, 240.
Gatland, K. W. Elected Vice-President, 304, 533; elected Member of Council, 531; reviews B.I.S. activities, 431; biography, 171.
Ghose, S. G. Discussion at Meteorology from Space Symposium, 409, 417, 428.
Godwin, F. Paper: "A Unified Approach to Data Processing", 212; discussion at Ground Support Equipment Symposium, 205, 240.
Gollomp, B., Lawton, John and A. B. Van Rennes. Paper: "Evolution of Automatic Check-out Equipment", 223.
Golovine, M. N. Elected Member of Council, 102; elected President, 304; Report of Council, 448, 531; remarks at Aerospace Vehicles Symposium, 433.
Granger, I. O. Death, 55.
Greenwood, S. W. Elected Member of Council, 531; biography, 451.
Groves, G. V. Elected Member of Council, 102.

Hadfield, G. R. Discussion at Ground Support Equipment Symposium, 205, 240.
Hallett, J. Discussion at Meteorology from Space Symposium, 418.
Hart, A. B. Paper: "Fuel Cells", 58; reply to discussion, 68.
Hawkins, A. E. G. Discussion at 18th Annual General Meeting, 431.
Hay, R. M. F. Discussion at Meteorology from Space Symposium, 418.
Heelis, J. R. G. Discussion at Space Power Generation Symposium, 86.
Hickman, P. L. V. Paper: "The Design and Development of the Autopilot for Control of the First-Stage Blue Streak", 292.
Higgins, J. K. Discussion at Advanced Propulsion Systems Symposium, 369–70.
Hilton, W. F. Appointed I.A.F. Executive Secretary, 54; retirement from Council, 431; discussion at space power generation symposium, 68, 86; discussion at Annual General Meeting, 531.
Houghton, D. M. Discussion at Meteorology from Space Symposium, 418.
Houghton, J. T. Paper: "Stratospheric Temperature Measurements from Satellites", 382; discussion at Meteorology from Space Symposium, 385, 428.
House, William C. Paper: "The Development of Nuclear Rocket Propulsion in the United States", 306; reply to discussion, 369–71.
Hume, C. R. *See* Williams, C. C.
Hunt, J. S. Death, 55.
Hurden, D. Elected Member of Council, 304, 431; paper: "Liquid Propellent Sounding Rockets for Upper Atmosphere Research", 25; remarks at Space Power Generation Symposium, 57; discussion at Annual General Meeting, 531.

Ince, A. N. and Trollope, L. T. Paper: "A Method for the Determination of Visibility, Range, and Doppler Shift in Studies of Satellite Systems", 433.

James, D. G. Paper: "The Interpretation of Meteorological Information from Satellites", 410; discussion at Meteorology from Space Symposium, 410, 417–8.
Jeffs, R. A. and Beeton, A. B. P. Paper: "Liquid Air Cycle Engines for High-Speed Aircraft" 484.

Kaeppler, H. J. Paper: "Methods of Magneto-plasmadynamic Space Propulsion", 360; reply to discussion, 369–70.
Kármán, T. von. Death, 103.
Kaufman, Harold R. (*see also* Mickelsen, William R.). Discussion at Advanced Propulsion Systems Symposium, 369–71.
King-Hele, D. G. Paper: "Upper-Atmosphere Densities", 374; reply to discussion, 385.
Koelle, H. H. Paper: "Trends in Earth-to-Orbit Space Transportation Systems", 265.
Kuskevics, G. *See* Forrester, A. T.

Langton, N. H. Elected Member of Council, 102; Discussion at Annual General Meetings, 432, 531.
Lawton, John. *See* Gollomp, B.
Leader, R. A. Discussion at Annual General Meeting, 532.
Lee, J. G. W. and Cole, A. F. Paper: "Data Information and Collection from Blue Streak", 207.
Lindley, B. C. Paper: "The Application of Nuclear Energy for Large-Scale Space Power", 92; discussion at Space Power Generation Symposium, 86, 99.
Lloyd, W. W. Paper: "The Theory and Application of Solar Cells", 110.

McAllister, D. F. and Wagner, J. T. Paper: "Lunar and Earth Orbital Navigation", 521.
McNeill, P. C. Candidate for Council, 531; Paper: "An Experimental Bombardment Ion Source", 278; discussion at Advanced Propulsion Systems Symposium, 369.
Maher, L. E. Discussion at Advanced Propulsion Systems Symposium, 369; discussion at Aerospace Vehicles Symposium, 490.
Malcom, D. Secretary of Scottish Branch, 54.
Mamikunian, Gregg. *See* Briggs, Michael H.
Mason, —. Discussion at Meteorology from Space Symposium, 418.
Massey, (Sir) H. Remarks at Meteorology from Space Symposium, 373.
Maxwell, W. R. Co-opted Member of Council, 533; Report of Council, 102, 168; discussion at Ground Support Facilities Symposium, 173, 205.
Messenger, A. D. Discussion at Ground Support Equipment Symposium, 205.
Mickelsen, William R. and Kaufman, Harold R. Paper: "Electrostatic Thrustors for Space Propulsion, Present and Future", 319; reply to correspondence, 371.
Miller, E. Conrad. Correspondence on "Extra-terrestrial Life", 100, 263.
Mills, H. T. Discussion at 18th Annual General Meeting, 431.
Morse, J. G. Paper: "Radionuclide Power Sources", 87; discussion at Space Power Generation Symposium, 68, 86, 99.
Mottram, A. W. T. Communication concerning Aerospace Vehicles Symposium, 516.
Munday, R. G. T. Paper: "System Design of Space Simulation Chambers", 272.
Murrell, M. D. Paper: "Time per Orbit that Earth Satellites in Equatorial Orbits Are in Earth's Shadow", 41.

Nicol, N. R. Elected Member of Council, 102.
Nicola, L. and Walters, L. G. Paper: "Scalar Differential Expressions for the Geostationary Satellite", 241.

Nikolaeva, (Mrs.) Valentina V. Awarded B.I.S. Gold Medal, 303.
Nyman, Alexander. Paper: "Astronautical Velocity and Timing Charts for Use in Space Travel", 3.

Orme, A. Discussion at 19th Annual General Meeting, 531.
Oscar, —. Discussion at Meteorology from Space Symposium, 385.

Pardoe, G. K. C. Retirement from Council, 431.
Paris, R. B. Correspondence on "Precession of Satellites", 99; "Five Years of Spaceflight", 165.
Peckham, D. H. *See* Crabtree, L. F.
Peritz, Curt. Correspondence on "The Cube Projection Space Mapping System, 100.
Pickering, William H. Elected I.A.F. President, 519.
Pothecary, I. J. W. Discussion at the Meteorology from Space Symposium, 418.
Powers, William T. Correspondence on "Extra-terrestrial Telescopes", 430.
Prime, H. A. Paper: "Design Criteria for a Satellite Communication Ground Station", 118.
Purnell, N. Discussion at Ground Support Equipment Symposium, 206.

Quirk, I. J. Death, 55.

Ricketson, B. W. A. Candidate for Council, 431; elected Member of Council, 531; discussion at Advanced Propulsion Systems Symposium, 369.
Roberts, G. C. Discussion at Space Power Generation Symposium, 99; Scrutineer at Annual General Meetings, 431, 531.
Robinson, H. G. R. Paper: "A Review of Range Support Requirements", 174; reply to discussion, 205–6.
Roycroft, J. D. Death, 171.

Schnapf, A. Paper: "Tiros: The Television and Infra-Red Observation Satellite", 386; discussion at Meteorology from Space Symposium, 409, 417–8.
Schoeck, Peter A. Paper: "Physical Phenomena and Technical Problems of Arcject Engines", 337.
Scibor-Rylski, A. Communication concerning Aerospace Vehicles Symposium, 516.
Seddon, J. *See* Dowlen, E. M.
Shepherd, L. R. Elected Member of Council, 304, 431; elected Vice-President, 533; Paper: "Nuclear Power Sources for Electrical Propulsion", 350; reply to discussion, 369–71.
Singer, S. Fred. Awarded B.I.S. Astronautics Medal, 54.
Skotch, H. J. H. Paper: "Power Generation in Space: A Review of the Problem", 58; reply to discussion, 68.
Slater, A. E. Elected Member of Council, 531.
Smith, F. R. Discussion at 19th Annual General Meeting, 531.
Smith, J. L. Correspondence on "Extra-terrestrial Life", 447.
Smith, T. W. Paper: "Engineering Problems of Near Future Hypersonic Vehicles", 463.
Stanton-Jones, R. Discussion at Ground Support Equipment Symposium, 206.
Stewart, P. A. E. Candidate for Council, 431; paper: "Design Study of a 3 kW_e Inflatable Solar Turboelectric Generator", 69; correspondence on "Lunar Satellites", 52; "Extra-terrestrial Telescopes", 428; discussion at Space Power Generation Symposium, 86; at Advanced Propulsion Systems Symposium, 370–1.
—— and **Swale, J. F.** Paper: "A Lightweight Solar Propulsion Unit for Geocentric Inter-orbital Transfer", 148.
Stott, G. Discussion at Space Power Generation Symposium, 86, 99.
Surtees, H. Elected Member of Council, 102; biography, 172.
Sutcliffe, R. C. Discussion at Meteorology from Space Symposium, 418, 428.
Swale, J. F. *See* Stewart, P. A. E.

Teem, J. M. *See* Forrester, A. T.
Tereshkova, (Miss) V. V. *See* Nikolaeva, (Mrs.) Valentina V.
Thaddeus, P. Paper: "Recent Space Probe and Earth-Based Studies of Mars and Venus", 419; discussion at Meteorology from Space Symposium, 385, 409, 428.
Tharratt, C. E. Paper: "Black Knight Support Facilities", 178 (reply to discussion, 205–6); "Black Knight", 248.
Third, S. M. Discussion at Advanced Propulsion Systems Symposium, 369.
Thompson, G. V. E. Elected Member of Council, 304, 431; Editorial: "Star in the East", 1; discussion at Space Power Generation Symposium, 86; at Meteorology from Space Symposium, 428; biography, 172.
Tokaty, G. A. Paper: "The Hypersonic Aerodynamics of an Aerospace Vehicle", 470.
Tolladay, B. E. Discussion at Meteorology from Space Symposium, 418.
Treble, F. C. Discussion at Space Power Generation Symposium, 68, 86.
Trollope, L. T. *See* Ince, A. N.
Turner, C. R. Paper: "Some Fundamental Aspects of the Aerospace Plane Concept", 454.

Van Rennes, A. B. (*see also* Gollomp, B.), discussion at Ground Support Equipment Symposium, 240.

Wagner, J. T. *See* McAllister, D. F.
Walters, L. G. *See* Nicola, L.
Warren, H. R. Discussion at Meteorology from Space Symposium, 409.
Watson, W. H. Correspondence on "Lunar Satellites", 52; "Ganymede and Callisto", 372.
Wetherall, L. F. Discussion at Space Power Generation Symposium, 68.
Wheeler, L. J. Discussion at Space Power Generation Symposium, 86.
White, R. G. Death, 55.
Willey, G. C. Discussion at 17th Annual General Meeting, 102.
Williams, C. C. and **Hume, C. R.** Paper: "Blue Streak Ground Support Equipment", 185; reply to discussion, 205.
Wilson, G. W. Paper: "Small Non-Conventional Electrical Power Sources", 81; discussion at Space Power Generation Symposium, 86, 99.
Wilson, I. J. Correspondence on "Stratospheric Radiation Hazard from Large Solar Flares: Some Proposals", 446.
Wright, Alan. Correspondence on "Planetary Magnetic Fields", 264; "Nuclear Explosions in Space', 518.
Wright, Ian B. Paper: "Applications of a System of Functional Anthropometry in Pressure Suit Design", 31.

Young, —. Discussion at Meteorology from Space Symposium, 385.

Zealley, P. R. Discussion at Meteorology from Space Symposium, 385.
Zimmerman, C. Death, 55.
